Item 1 Spark Ignition Engine Emission Testing on and After 1 August 2008

This Special Notice introduces the Fourteenth Edition of the "In Service Exhaust Emission Standards for Road Vehicles" book with graduated green front cover.

From 1 August 2008 until your analyser database is updated, if you test any vehicle listed you must base your test and pass/fail decision on the limits shown in the Fourteenth Edition. These may vary from those in your analyser database.

All 1996 specification exhaust gas analysers must have the database updated as soon after 31 July 2008 as possible. This is the normal annual update. All databases must be updated by 30 November 2008.

If your analyser can be updated by purchasing a disc and loading it yourself, then we will expect you to do this during August providing the disc is available. Some analysers require an engineer to visit and carry out an update which is why we allow the additional period.

The Fourteenth Edition book will be dispatched through the post. You should receive this before the 1st August 2008.

A handwritten signature in black ink, appearing to read 'G.W. Cumming'.
